

Module 5 Readings: Computer Vision Fundamentals on Google Cloud

Here are the assembled readings provided in Module 5.

Module 5: Dealing with Image Data

- Lesson 2: Reading and Preprocessing the Image Data
 - o tf.data
 - o tf.image.ResizeMethod
 - Learning to Resize Images for Computer Vision Tasks
 - tf.image
 - tf.keras.layers.Resizing
 - o tf.keras.layers.Rescaling
- Lesson 4: Data Augmentation
 - o Dataset.map
 - tf.image
 - o tf.data
 - tf.image.flip left right
 - o tf.image.rgb to grayscale
 - tf.image.stateless random brightness
 - tf.image.stateless random contrast
 - tf.image.stateless random crop
 - tf.image modules for data augmentation
 - o <u>tf.py function</u>
 - https://keras.io/api/layers/preprocessing_layers/image_preprocessing/
- Lesson 5: Transfer Learning
 - o <u>MobileNet</u>
